

I am an XM Radio subscriber. I benefit from the services that XM Radio provides, including the Traffic and Weather Channels. The quality of the service provided by XM radio is unmatched anywhere else. The entertainment and information I need is there wherever I go and when I need it. I pay for the services that XM radio provides to me. I choose to pay for it. Therefore, I should be able to choose what I want to hear. The National Association of Broadcasters should not be the ones who dictate what I am permitted to hear. I urge you to REJECT the NAB's PETITION 04-160.
